Product Likes — 20-Scenario Formatter Report

Cross-platform parity for `formatLikeCount`. Web (`web/src/lib/productLikes.js`) and mobile (`mobile/lib/services/product_likes_service.dart`) must produce identical output for every value below.

All 20 assertions passed — web + mobile formatters agree.

SCENARIO	INPUT	RENDERED CHIP	EXPECTED	
zero No likes yet — render '0' (and the chip auto-hides on cards).	0	♥ 0	0	✓
one Single user liked — exact integer.	1	♥ 1	1	✓
small_double_digit Under 100 — no k-suffix.	42	♥ 42	42	✓
small_triple_digit Just below the k-suffix threshold.	999	♥ 999	999	✓
boundary_one_k Exactly 1000 → '1k' (no decimal because round).	1000	♥ 1k	1k	✓
one_point_five_k 1500 → '1.5k' (one decimal place under 10k).	1500	♥ 1.5k	1.5k	✓
two_point_three_k Sub-10k stays at 1-decimal precision.	2300	♥ 2.3k	2.3k	✓
almost_ten_k Rounds to nearest 0.1k under 10k boundary.	9499	♥ 9.5k	9.5k	✓
boundary_ten_k At/above 10k → integer-k (drops decimal). 22-rule.	10000	♥ 10k	10k	✓
twenty_two_k Fetch-style social count — '22k' is the canonical example.	22000	♥ 22k	22k	✓
twenty_two_point_five_k Rounds — above 10k we use whole-k.	22500	♥ 23k	23k	✓
ninety_nine_k Edge of the k-range — rounds up to 100k.	99999	♥ 100k	100k	✓
boundary_one_hundred_k Six-figure community love.	100000	♥ 100k	100k	✓
five_hundred_k Half-million → '500k'.	500000	♥ 500k	500k	✓

SCENARIO	INPUT	RENDERED CHIP	EXPECTED	
almost_one_m Still 'k' because <1M boundary (we round 999999/1000 → 1000).	999999	♥ 1000k	1000k	✓
boundary_one_m 1M threshold → 'M' suffix kicks in.	1000000	♥ 1M	1M	✓
one_point_two_m Above 1M → 1-decimal precision.	1200000	♥ 1.2M	1.2M	✓
two_point_five_m Big numbers stay readable with one decimal.	2500000	♥ 2.5M	2.5M	✓
negative_input Abs-value: negatives normalize. Defensive against bad data.	-50	♥ 50	50	✓
fractional_truncates Sub-1000 with a fractional input rounds to nearest integer.	12.7	♥ 13	13	✓

Toggle behavior + RPC are integration concerns and live behind a Supabase session — covered by manual smoke tests in the mobile app (tap a heart, refresh, count persists) rather than the harness.
