STEP 1 • GET RECEIPTS IN

Three ways in — and a shield

- 1 Camera — snap a paper receipt from the app, single shot or batch of three.
- 2 Email — forward to your free you+g@getguac.app inbox; it auto-files in 10 min. A real two-way mailbox you hand to merchants instead of your personal email.
- 3 Statement (optional) — drop a card or bank PDF and every line becomes a receipt.

GUAC-AI STRATEGY

Increase your 401(k) contribution to at least 10% of your income, aiming for the maximum if possible.

Open a Roth IRA and contribute the maximum allowed for 2024, which is \$7,000.

If eligible, consider opening an HSA and contributing the maximum, as it offers a triple tax advantage.

Automate your savings by setting up recurring transfers from your checking to your investment accounts.

TAX BENEFITS

401(k): You can contribute up to \$23,000 in 2024, plus any employer match, which is tax-deferred.

Roth IRA: Contribute up to \$7,000 in 2024; your withdrawals in retirement are tax-free.

HSA: For 2024, you can contribute \$4,150 for self-only coverage or \$8,300 for family coverage, offering tax-deductible contributions, tax-free growth, and tax-free withdrawals for qualified medical expenses.

You're doing great by starting early and consistently; keep up the fantastic work, and your future self will thank you!
